FTP

FTP (File Transfer Protocol)

FTP is a client-server protocol.

- 141.164.60.30
- new.studyforus.com
-

FTP uses two ports: 20 and 21.

- `ftp://141.164.60.30` or `ftp://new.studyforus.com`
- `ftp://sfu1` or `ftp://1`
- `ftp://sfu1:password@141.164.60.30`

FTP is a stateful protocol, meaning it maintains a connection between the client and the server. It uses a control connection (port 21) and a data connection (port 20).
